

FEE SCHEDULE

The initial intake/assessment appointment is \$250.00. My standard fee is \$125.00 per clinical hour, for individual sessions; \$150.00 for family sessions. I work with various insurance plans, but mostly as an "out of network" provider. Payment is expected at the time of service. I will provide a detailed encounter form for each session, for submission to your insurance company for reimbursement.

In addition to clinical sessions, I offer the following services:

Consultations, physician referrals, school conferences, etc.
\$50.00 ½ hour

Consultations are very important when working with other physicians, psychiatrists, school social workers, and psychologists. Continuity of care and a team approach is most effective in treating the whole person. A release of information form must be completed prior to any exchange of information.

Telephone calls

I do not charge for brief 10-15 minute phone calls. However, if a call goes beyond that time frame a charge of \$25.00 per ¼ hour of service will be billed. If calls become frequent, the issue will be addressed clinically, and an increase/addition in weekly sessions will be suggested.
